IN THIS CLINIC, learn about and participate in a new improvisational system. Try out the revolutionary Trick Pro 1-V pedal. Its design was developed by drummers, not engineers. Bring paper, pen and sticks.

MICHAEL P. BARTON has been drumming for over 40 years, engineering and producing for over 25 years and teaching for over 20. He's played and recorded with the music industry's best in every musical setting. Barton studied at the University of Maine-Orono and Lawrence University.
